

# AC10

# Westone® AC Series

- Cold-poured acrylic delivers amazing fit
- Micro balanced armature driver design
- Custom fit, hand-crafted in Colorado, USA

The AC Series breaks new ground in performance, quality, and value. Handcrafted in the same custom lab alongside the revered Westone ES Series, the AC Series uses balanced armature drivers to accurately reproduce your live performance. The “cold pour” clear acrylic body with the EPIC replaceable cable is exceptionally comfortable, provides up to 25dB of ambient noise reduction, and is quite stealthy on stage. The AC Series is available only in clear, full acrylic, with the Westone logo etched on the faceplate.

## AC10 Specifications

<b>SENSITIVITY:</b>	114 dB SPL @ 1 mW
<b>FREQUENCY RESPONSE:</b>	20 Hz - 16 kHz
<b>IMPEDANCE:</b>	25 ohms @ 1 kHz
<b>PASSIVE NOISE ATTENUATION:</b>	25 dB
<b>DRIVER:</b>	Balanced armature, full-range
<b>CABLE:</b>	EPIC replaceable cable
<b>CABLE LENGTH:</b>	52" / 132 cm
<b>BODY:</b>	Full acrylic
<b>FEATURES:</b>	User manual, travel case, and 2-year warranty
<b>PART #:</b>	78495
<b>UPC #:</b>	602353784950

Designed and Assembled in Colorado, USA

## HIGH PERFORMANCE EARPHONES

### Ideal for:

Emerging Artists , Worship Teams

### Westone Custom-Fit Technology

Fully custom earpieces are cast, sculpted, and polished by hand from actual impressions of your ears, resulting in the best fit and acoustic seal possible.

### Balanced Armature

Westone's balanced armature drivers are significantly more compact and efficient than traditional dynamic drivers. Westone monitors provide enhanced sonic detail and frequency range that extends well beyond typical in-ear solutions.

### Cold Pour Acrylic

Earpiece housings are cold-poured in acrylic for a thicker, more resilient acoustic enclosure. Expect increased durability, a more controlled response, and a lustrous appearance from this Westone technology.

### EPIC Replaceable Cable

Westone's robust EPIC cable is constructed of bifurcated, high-flex, ultra-low resistance tinsel wire, reinforced with a special aramid fiber, and braided for ultimate durability, acoustic transparency, and isolation from mechanical cable noise. The MMCX audiophile connector makes this solution conveniently user-removable and replaceable.

### Made in the USA

Meticulously built by a staff of dedicated artisans and lab techs, Westone's USA products exhibit a level of craftsmanship that truly embodies America's rich history of handmade artistry.
