### Imren Ozturk, MD, MBS

**Board Certified in Family Medicine**  
Fluent in Turkish

*"I chose Family Medicine for a multitude of reasons, as it allows me to care for a patient without limitation based on gender or age. I am able to care for patients holistically, including their physical and mental health. It is important to be sensitive to the uniqueness of each patient's situation, needs, and concerns. I'm committed to helping patients enjoy a healthier lifestyle."*

### James W. Rogers, DO

**Board Certified in Family Medicine**

*"I believe we are all endowed with life and health by design. Wellness begins from within; how we think, emote, and carry on our lives by a series of many individual choices we make. When illness or injury strikes, return to health becomes about our predisposition to give and receive help. On these basic principles I practice Family Medicine."*

### Chau B. Nguyen, DO

**Internal Medicine**  
Fluent in Vietnamese

*"Internal Medicine gives me the opportunity to provide comprehensive and holistic solutions for each patient. We were taught that 60-70% of the useful information is from the clinical story, but I believe such information is from listening to patients, giving them the benefit of doubt, and creating a shared solution that will work for the individual."*

### Grace C. Averitt, DO

**Board Certified in Pediatrics**

*"I was initially intrigued with medicine as a career when I discovered that I could use investigative skills to help diagnose, treat, and help people. I was drawn to pediatric medicine because I love being able to play a role in preventing future disease by laying the groundwork early with parents and their children."*
