

UNIVERSAL UM PRO 20

Westone®

- Designed for performing artists
- Dual-driver design
- Range and raw output for any stage condition

The Westone UM Pro 20 is a professional tool packed with features that help you bring down the house every time you get on stage. The dual driver balanced armature design has the range and raw output for any stage condition. Individually hand-crafted in the USA, the UM Pro 20 is comfortable and secure with Up and Over™ cable routing that helps prevent microphonics and keeps your earphones securely in place.

HIGH PERFORMANCE EARPHONES

Ideal for:

On-Stage Monitoring, Drummers, Bass Players

Westone True-Fit Technology

50+ years experience with in-ear applications has yielded a low-profile, lightweight, universal earpiece which delivers maximum comfort and in-ear coupling for dynamic transfer of sound.

Balanced Armature

Westone's balanced armature drivers are significantly more compact and efficient than traditional dynamic drivers. By combining multiple balanced armature drivers with sophisticated crossover networks, Westone monitors provide enhanced sonic detail and frequency range that extends well beyond typical in-ear solutions.

EPIC Replaceable Cable

Westone's robust replaceable cable is constructed of bifurcated, high-flex, ultra-low resistance tensile wire, reinforced with a special aramid fiber, and braided for ultimate durability, acoustic transparency, and isolation from mechanical cable noise.

Designed & Assembled in the USA

Meticulously built by a staff of dedicated artisans and lab techs based in the USA, Westone's products exhibit a level of craftsmanship that truly embodies America's rich history of handmade artistry.
