

UNIVERSAL **UM PRO 30**

Westone®

- Recommended for all singers and musicians
- Triple-driver design
- Perfect fusion of high performance and luxury comfort

Individually hand-crafted in Colorado Springs, Colorado, the UM Pro 30's superior build quality and sound signature are unmatched. Tuned for performing artists, the three-way crossover is matched to individual low, mid, and high frequency drivers to make your mix smooth and balanced across all frequencies. The EPIC replaceable cable with Up and Over™ cable routing helps prevent microphonics and keeps your earphones securely in place.

HIGH PERFORMANCE EARPHONES

Ideal for:

On-Stage Monitoring, Home, or Studio Recording

Westone True-Fit Technology

50+ years experience with in-ear applications has yielded a low-profile, lightweight, universal earpiece which delivers maximum comfort and in-ear coupling for dynamic transfer of sound.

Balanced Armature

Westone's balanced armature drivers are significantly more compact and efficient than traditional dynamic drivers. By combining multiple balanced armature drivers with sophisticated crossover networks, Westone monitors provide enhanced sonic detail and frequency range that extends well beyond typical in-ear solutions.

EPIC Replaceable Cable

Westone's robust EPIC replaceable cable is constructed of bifurcated, high-flex, ultra-low resistance tensile wire, reinforced with a special aramid fiber, and braided for ultimate durability, acoustic transparency, and isolation from mechanical cable noise.

Designed & Assembled in the USA

Meticulously built by a staff of dedicated artisans and lab techs based in the USA, Westone's products exhibit a level of craftsmanship that truly embodies America's rich history of handmade artistry.
