Debra A. Burbach, MD, FAAP

Pediatrics

"I chose pediatrics as my specialty because I wanted the opportunity to make a difference in the lives of children and families. It is important that families have support and guidance through the various stages of growth. There is never a day that my patients don't make me smile!"

Melissa J. Chan, APRN, MSN, CPNP-PC

Pediatrics

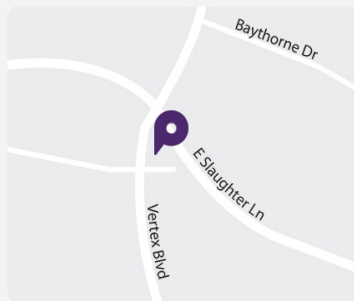

"My approach to my practice stems from the quote, 'They may forget what you said, but they will never forget how you made them feel.' It is a privilege to guide a child's growth and development, get to know their families, and form bonds with the community."

Charlotte E. Wright, APRN, MSN, FNP-C

Dermatology

"As an advanced practice clinician (APC), I am able to perform minor procedures and educate patients about skin conditions, while helping them feel like their best self. I love that I am able to establish ongoing relationships with patients in different stages of life as they face various dermatological conditions."
