Dear Patient,

I hope this letter finds you in good health. I am writing to inform you of an upcoming change which may affect your health care. After much thought and careful consideration, I have decided to accept a new position at the CDC in Atlanta and will therefore be moving out of state. This comes with mixed emotions since Austin Regional Clinic (ARC) quickly became my professional home.

- **Wednesday, January 15, 2025, will be my last day seeing patients at ARC Far West.**

Please disregard this letter if you are not a regular patient of mine, your care at ARC will not change.

It is very important to me as well as ARC that you maintain continuous health care. ARC’s electronic medical record system allows your records to be accessed from any ARC location and ensures that both my notes and your medical records will be available for your future care.

At ARC it is our standard that we support our partners and take care of each other’s patients. I have complete trust that my colleagues are more than happy to welcome you to their practice and will take excellent care of your health. **I recommend these internal medicine (IM) and family medicine (FM) physicians and advanced practice clinicians (APCs) at ARC Far West and ARC Quarry Lake:**
